When You Have
SOME SHOPPING TO DO

as every woman has every week of her life, and you are anxious to make your money go as far as it will, anxious to get an article for four and a half dollars instead of five, and to secure the next article on your list for ninety cents instead of a dollar, and to cut off a dollar here and a dime there from the probable prices, all through the list—then it is that a copy of THIS NEWSPAPER is equivalent to a Handful of Coin!

PRICE 6 CENTS

Grand Jury Will Study Money Lending

Washington Gives By Cable the Figures Of Building Site Bids PRICES ASKED DIFFER WIDELY

Considerable interest was shown in the business community today over the bids for a Federal building site, which had been opened at Washington yesterday. While several of the parties who had submitted bids were disinclined to give out any information on the matter, a congressional source says Washington agents had particular regard to the bids presented by various contractors, and gave the following figures: about \$1,000,000 for the building occupied by May 1, 1907. This will give the site a coverage of 200 feet on King street and 200 feet on Bishop street.

Plans of the site offered by the Waterhouse Trust Co. are located between the Franklin and the W. M. Hall & Son buildings on King street. The property consists of vacant lots and will cost about \$100,000. It is understood that the Waterhouse Trust Co. will knock the old buildings, while on the Franklin side it will be required by the proposed extension of Bishop street. It is understood no good authority that the property

MARSHALIA LYING AT THE WHARF

Rescued Liner Comes In At Eight This Morning

Towering high above the wharf like some huge skyscraper, the Marshalia lies at port after her strenuous voyage on the east of Wallisian Bay, she was brought to this morning and lay up at the long side of Hockland & Company's wharf at 8 o'clock.

It would take a rather fine imagination for one unacquainted with her story to know that she has been through such an experience as she has. As seen from the wharf, there is little about her appearance that is unusual, aside from a slight coating of white along her sides, from the bows that were beaten seaward, and a slow growth of seaweed on the exposed side. There are no visible scars to her heavy plates. Only a few long scratches toward shore where one of her anchors was beaten dropped over board when the struck.

"Look at her," said Captain Sam Davis. "She's the look as if she had been lying on a reef for several weeks!" (Continued on Page 2)

TRouble For Usurers

The men of this city who have made a practice of loaning money to working people on their notes and charging them interest at the rate of 10 per cent a month, are liable to have a session before the Grand Jury, which meets tomorrow, that will be interesting and probably will result in some of them going out of business. Since the newspaperman in Judge Dole's court, where a witness explained his condition as due to these money lenders, Attorney General Peters has been looking into the matter and in all probability the Grand Jury will be able to bring in several indictments on the result of his work.

BISHOP WILL IS FILED

The will of Charles H. Bishop, who committed suicide in October, Cal., last month, was filed with the clerk of the Circuit Court, this morning. It is very brief and all money and property left after the payment of his debts will interest expenses to go to his legal heirs. The will was signed in this city on July 16, 1904.

Two Of Mongolia's HOLDINGS ARE Full Of Water

Although Captain Metcalf has not yet left Honolulu for the Midway Islands for the purpose of directing the work of raising the Mongolia, he is practically in an active command of operations there as it is now on the ground. Close cable communication is being kept up between the stranded vessel and this place and Captain Metcalf is directing operations from that point.

Considerable preliminary work is going on at Midway, awaiting the arrival of the rescuing vessels. Captain Metcalf has ordered the laying of anchors to hold the Mongolia steady in her position and prevent her drifting further onto the reef, and unless bad weather sets in it is not thought that she will be in any immediate danger of getting into a worse position.

Captain Metcalf expects to get away for Midway about Thursday, unless it should take longer than that to recover the anchor lost in Wallisian Bay. The Rescuers is only awaiting these before proceeding on her journey. Practically all the tackle used in the raising of the Mongolia will be used in the attempt to pull her sister ship off the dangerous reef upon which she lies. It is very fortunate that this tackle is here, as it greatly improves the chances of saving the ship. If it had been necessary to send to San Francisco for the gear, there is more than a probability that heavy weather might set in and destroy all chance of pulling the Mongolia off the reef.

It is generally considered that she is in a much more dangerous position than the Mongolia ever was. The waters about the Midway Islands are extremely dangerous at all times, and the vessel there is said to be extrac-

Governor Carter Does Not Expect Any Cutting Of Ticket

PREDICTS HARMONY OF REPUBLICANS

"I do not believe that there will be any slashing of the ticket nominated by the Republicans at their recent convention." This statement was made this morning to a Bulletin reporter by Governor Carter as the answer to a direct question on the subject. He went on to say:

- "I have not taken any part in the political campaign for the Republican nomination which was terminated in the recent convention; nor will I do so. It is for the people of the Territory to select the members of the Legislature, and when they come here for their session I will work with them to the very best of my ability. It takes two to make a fight, and I shall not be one of the two."
- "I see no reason why harmony should not exist throughout the Republican party or why it should not be completely victorious in the polls. The talk of cutting the ticket which has been made does not seem to me to have any basis, and I do not believe that it will be done when the election comes."

CLOUD POSTPONES STUMPING TOUR

Delegate Kalanianaole did not start on his stump tour on the other islands today, as had been expected. He showed up on the wharf a few minutes before the Kinau left, but did not board the boat.

BULLETIN ADS. PAY

FURNITURE At Your Own Price

The old established furniture house of J. HOPP & CO., the store in the Young Building, which recently bought the stock of furniture which belonged to the Porter Furniture Co. which is retiring from business, have placed on sale at J. HOPP & CO.'s stores the entire stock of Porter's at prices which have not been placed on furniture here before.

J. HOPP & CO. carry on their own account a large stock of furniture and they have no room for Porter's stock, so they will almost give away the latter. Bring your money with you and the price will be less than you expect to pay.

Closing Out The Stock

The Porter Furniture Co. had a stock which included some high grade goods. We will "murder" these. We have a new lot of new furniture due to arrive here and must put Porter's stock out of the way.

The stock includes everything you can use in your house. Now is the time to buy it.

Porter's Stock At Your Figures

PACIFIC MUTUAL FACTS.

The Company sustained only one death loss attributable directly to the awful disaster of April 18th last.

The Company's San Francisco Home Office Building, destroyed by fire, was fully covered by insurance in standard companies.

The land upon which the San Francisco Home Office Building stood has not depreciated in value, but by reason of the destruction of Chinatown, has rather appreciated in value.

San Francisco mortgages held by the Company, amounting to \$800,000, were protected by real estate valued at \$493,000, with improvements, only a part of which were destroyed, worth \$170,000, and upon which improvements the Company held fire insurance to the amount of \$75,000.

The vaults withheld the fire and their entire contents, about two carloads of books and records, are now in our Los Angeles Home Office.

The Company has approved agents of about \$1,000,000, has nearly \$100,000,000 of insurance in force, has an annual income of more than \$4,000,000, and has surplus to policy-holders of about \$1,000,000.

Under the California insurance laws the stockholders, whose wealth is estimated about \$40,000,000, are liable for the obligations of the Company.

THE PACIFIC MUTUAL LIFE INSURANCE COMPANY OF CALIFORNIA is the largest and most popular life insurance company west of the Mississippi River, and has done a conservative and progressive business for thirty-nine years, paying claims promptly and satisfactorily, as it will continue to do.

No matter what our competitors may say to you, these are the FACTS!
